Other Stuff

- The planet is named Mobius and the anthro animals are named Mobians.
- Instead of Humans, there are Overlanders, who are slightly mutated humans created by the Xorda's gene bomb attack.
    - Due to a mutation, most Overlanders have 4 fingers, with the exception of the Robotnik family.
- The series starts in the year 9120, and ends around 9125-9130.
- Anyone who is deemed worthy by the Chaos Emeralds is able to have a super form.
    - Not every super form is yellow, they can be basically any color.

- All of Robotnik’s more important Badniks are connected to a cloud server and when destroyed have all of their data saved in that server in case Robotnik ever needs them again.

- All badniks will have a serial number like “MBG-100” for Motobugs or “EGR-123” for Eggrobos.

- Fang, Bean, and Bark are not a group at all since Bean is a part of the Battle Bird Armada and Bark isn’t evil.

- If I use Sonia and Manik then they will be Sonic’s cousins and also get redesigns like making their fur blue.

- If Mobians of 2 different species have a child then the child will have the animal species of just one of the parents and not be a mix of the two species.

- Little Planet only appears once every 200 years.

- No Sonic 06 adaptation, it did happen but was erased from history, happened sometime after The Black Arms invasion.
    - Blowing out the flame of Solaris also altered the history of Soleanna, it is now an abandoned kingdom that no one lives in anymore and no one remembers what happened except for Sonic, Shadow, and Silver having some residual memories of the event.
    - Sonic sometimes gets visions or dreams of events related to this, mainly him seeing Mephiles who he refers to as The Crystal Hedgehog.

- The zone cops are a police force that patrols the Cosmic Interstate to ensure that no one abuses it.

- The Cosmic Interstate is a series of pathways that connect to portals to other timelines, which they call zones, not every Timeline is connected to it, and the ones that are aren’t referred to with their timeline numbers and instead use the zone name that the Zone Cops gave to them.

- The Omniborg is an indestructible robot that can only be taken apart, it is unknown who built it, based on the Giant Borg from the Archie comic.

- Big The Cat and Bivalve Clam will have many background cameos, but not in every issue (Alongside Paul The Pumpkin who will cameo in every issue).
